EDUCATION

2009-2013

B. TECH COMPUTER SCIENCE, AMITY UNIVERSITY UP

CGPA: **8.18/10**

Awarded merit scholarship during the program for the outstanding academic performance for the academic session 2010-11, 2011-12 and 2012-2013.

2008

SENIOR SCHOOL CERTIFICATE EXAMINATION (XII), BIRLA SENIOR SECONDARY SCHOOL

Aggregate Marks: 80.4%

PROJECT DETAILS

SIEMENS
Ingenuity for life

SIEMENS– Bangalore, Karnataka
Domain-Healthcare IOT R&D

ASSIGNMENT 1:

Project Name: - HCP TeleCare

Brief description of the project: TeleCare empowers hearing care professionals (HCPs) to proactively address the needs of their patients during the trial period of hearing aids. This enhanced service package brings together guided assistance and direct communication after the patient's initial fitting through video calls and full live remote tuning. More info here

Cerner

Cerner Corporation– Bangalore, Karnataka
Domain-Healthcare

ASSIGNMENT 1:

Project Name: - EServices (Single Service Portal)

Brief description of the project:

Single Service Portal is the project to make changes to our support web portals (eService and ITWxSP) to mitigate impact of switching support from Navigator to Remedy. The goal was to have a single landing site for all our clients' support needs and to up front address changes that would impact the users by the switch to Remedy. That way the clients will not notice the transition. The ticketing system allows for a consistent numbering scheme for Service Request regardless of the source application of the ticket.It is also the staging place for SR requests from eService so that the client can submit requests even when the destination support system (or other middle man) is down. More info here

ASSIGNMENT 2:

Project Name: - Flashes

Brief description of the project:

Flashes is a Spring Boot application that is designed to allow users to search for, view and download English-language Cerner flash documents. Cerner flash documents are detailed documents that are published to provide important information that clients and associates need to maintain Cerner systems. Flashes are used to officially announce new releases, regulatory updates, technology changes, and critical issues.

ITC Infotech– Bangalore, Karnataka
Domain- Oil & Gas, Banking and financial services (BFSI)

ASSIGNMENT 1:

Client   :   General Electric

Brief description of the project:

Project Name: - GE Pipeline Integration (PVI Dashboard)

PVI Dashboard is a comprehensive Web-based pipeline GIS and reporting tool that allows distributed access to pipeline information. It provides a secure environment to manage and report information related to the pipeline. The application provides simple, quick and direct access to facility and integrity-related pipeline data to a distributed group

ASSIGNMENT 2:

Client   :   Danske Bank

Project Name: - Gemini Studio

Gemini Studio is a development tool (IDE) and runtime infrastructure for frontend applications. The IDE boasts of having drag and drop controls implemented using C# which creates web pages very quickly. The business for the project is the Shared Services Center and the main target groups are business developers and frontend developers.

ACTIVITIES

I am an active worker in "**The Robin Hood Army**" which is a volunteer based, zero-funds organization that works to get surplus food from restaurants and the community to serve less fortunate people. More info here
